## About Us

Hi Everyone

We are a group of parents & snack enthusiasts from Surabaya, Indonesia. Growing up, we witnessed how kerupuk has been a cornerstone of Indonesian's dining just like sambal.

We launched Kroepoek Waroeng in 2016 at a food expo in Dubai, UAE and looking at the enthusiasm of the international customers towards our Indonesian crackers has motivated us to introduce the Indonesian food heritage by creating deliciously flavoured, ready to eat kerupuk through our brand, The Munching Queen.

During the pandemic, we were looking for more options of locally made, kids friendly snacks without any of the nasty ingredients for our then 3 year old boy but could not find many options that he likes.

Having lived in Melbourne has made us more cautious about ingredients especially for our little ones. Thus we experimented with countless natural ingredient to create a more affordable, healthier options snacks that kids will love from kerupuk without compromising its quality and that's when fish & cheese series was born out of our kitchen.

We believe that quality is key and that healthier options snack can taste as good. We hope your little ones love them as much as we do.

Happy Munching!

Indonesia has a very rich coffee culture and is one of the world's most remarkable coffee plantation. Having that privilege, we wanted to create a special collaboration between the two things we love the most: chips & coffee. Coffee has become a part of tradition in people's life, it's no longer about the purpose of staying wide awake, but something that they enjoy.

Waking up in the morning to the smell of coffee is definitely something that we look forward to. We hope you enjoy our new creation of cappuccino chips topped with caramel sauce and sprinkled with Lotus Biscoff crumbs.
